

## Fusion

A unique one step compound with defined cutting (2000 grit) and polishing formulation for efficiently producing a premium surface finish on any painted work. No swirling marks or residue and results in high gloss on the surface.

### Gloss Level

### Abrasiveness

### Buffability

Fusion – (HSN – 3405 4000)

### Packing

125gm, 500gm, 40Kg, 200Kg

### Characteristics

- Light white paste
- Mild abrasive
- Paintable Gloss Boosters

### Key Benefits

- Quickly and effectively removes light scratches and oxidation.
- Less product needed preventing pads from becoming saturated.
- Paintable and will not "fish eye" freshly applied paint.

### How to use

- Apply small amount of product directly on painted surface.
- While product is wet, buff a 2' x 2' area with high speed buffer (2200 rpm, or less) and cutting pad. Keep pad flat on painted surface and buff until product dry, applying light, even pressure. Clean pad regularly.
- Remove residue with clean, microfiber cloth.

### Notes

- Ensure vehicle is not under direct sunlight while buffing and polishing.
- Do NOT allow product to freeze.
