Durability

Super Glaze – (HSN – 3405 3000)

Packing

500ml, 2.5L, 40L, 200L

Characteristics

- White coloured lotion with neutral fragrance
- Excellent durability
- Contains cross linking polymer
- Safe for all finishes

Key Benefits

- Quickly and effectively removes very light scratches, oxidation and swirl marks thereby minimizing buffing time.
- Polymer is chemically bonded to paint creating extremely durable protective layer.
- Very little product needed, which prevents pads from becoming saturated.
- Produces deep gloss, protecting finish from sun's ultra-violet rays.

How to use

- **High Speed Buffer**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply a small amount of the product directly on the painted surface or on every quadrant of the polishing pad.
 - Buff a 2'X2' area by keeping the polishing pad flat on the surface, and applying even pressure until the product is dry.
 - Remove the residue with clean soft microfiber.
- **Orbital Buffer / Hand**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply product evenly over a painted surface with a moist polishing bonnet or applicator sponge.
 - Use even pressure in circular motion to remove swirls and minor scratches and allow it to dry to haze.
 - Remove the residue with clean soft microfiber.

Notes

- Ensure vehicle is not under direct sunlight while polishing.
- Wash the polishing pads regularly after every use.
