

Underbody Coating –
(HSN – 3208 1010)

Underbody Coating

A unique blend of petroleum hydrocarbon and resins that weather proof the vehicle's under-chassis and help block out annoying road noise.

Durability

Packing

1L, 20L, 200L

Characteristics

- Black liquid
- Weather proofs & reduces road noise
- Ready to use

Key Benefits

- Extends vehicle life by weather proofing and insulating vehicle's under-body.
- Improves driving experience by reducing road noise.
- Resists abrasion, thus increasing length of protection.

How to use

- Ensure vehicle is clean and dry before applying product.
- Apply product with a spray gun designed for undercoating application.
- The type of gun used will depend on the size of container the product is drawn from.
- Apply product in well-ventilated area.

Notes

- Do not inhale/swallow.
- Avoid contact with skin and eyes.
