

Dry Wash (Concentrated)

A concentrated formula innovated by JOPASU for waterless car wash. JOPASU Dry Wash softens, lifts, and encases the dirt particles in the sprayed lubricant that is easily and safely wiped away with a microfiber wipe without any use of water. A complete water- saver product. Go Green!

Cleaning Strength

Foaminess

Dry Wash (Concentrated) –
(HSN – 3402 9099)

Packing

35L, 200L

Characteristics

- Milky white solution
- An exclusive pH balanced (pH 7-9) formula
- Removes dirt and grime, resulting into high lustre
- Can be used on paint, chrome, glass, rubber, plastic and vinyl surfaces

Key Benefits

- Cleaning and polishing is quick, as no rinsing or drying is needed.
- No water waste, water spots, swirl marks, streaks or scratches.
- One 500 ml solution can serve 6-8 cars and saves tons of water.

How to use

- For best results, work on your car off the sunlight.
- Use Jopasu Car Duster from top to down for freeing up loose dirt (Saves consumption of microfiber towels).
- Mix Dry Wash and water in the ratio 1:1. Apply the product by an applicator over a 2ft X 2ft surface and wipe it with a folded microfiber towel in one direction.
- Flip the towel to a clean side when soiled as dirt will not transfer to other panels. Switch to a fresh towel when needed.
- Continue this process until the entire vehicle is clean.

Notes

- For toughened dirt, leave Dry wash onto the surface for 2-3 minutes and then wipe it.
- Do NOT use Dry Wash on warm/hot surfaces.
- 35 ltrs and 200 ltrs packaging contains concentrated liquid which needs to be mixed with water in 1:1 ratio before application.
