

Eco Car Shampoo

A super concentrated, alkaline based, thick liquid shampoo with enhanced surfactants and cleaning agents to provide high foaming action to hold deposits in suspension for a scratch-free rinse.

Cleaning Strength

Foaminess

Eco Car Shampoo - (HSN – 3402 9099)

Packing

5Kg, 35Kg, 200Kg

Characteristics

- Red coloured, thick liquid
- An exclusive pH balanced (pH 7-9) formula
- Highly concentrated, alkaline based
- Can be used on paint, chrome, glass, rubber, plastic and vinyl surfaces

Key Benefits

- Can be used in Foaming gun.
- Low usage cost, as it is highly concentrated and mixes with water.
- Does not strip wax protection and is safe for all paint types due to its pH balanced formulation and non-streaking properties.
- Saves time and effort because it's super high foam lifts and holds dirt in suspension and promotes a film-free rinsing.

How to use

- Rinse the vehicle with fresh water from top to down for freeing up loose dirt and silt, so that it doesn't get caught in the wash mitt thereby marring the surface.
- Using Foaming Gun: Mix the product quantity with water in 1: (65-100) ratio (200-300ml in 20 litres of water) and pour it into the foaming gun. Foam the vehicle completely with the gun. With the help of wash mitt, clean the car in circular motion from top to down.
- Manual Car Cleaning: Mix 1 part of product with 125 parts of water (40ml shampoo in 5L water). Agitate the shampoo with a wash mitt and apply it to the top of the vehicle, then proceeding downwards on remaining parts including the wheel wells (Use a separate wash mitt for wheels).
- Rinse the vehicle from top to down again using low pressure washer.
- Remove any excess water by Jopasu Magic Wipe Microfiber.

Notes

- Ensure vehicle is not under direct sunlight while washing.
- Mix the shampoo and water as directed. Too much concentrated shampoo may lead to unwanted streaking.
