

Jopasu Microfibre (320 GSM)
(HSN – 6307 1090)

Jopasu Microfibre (320 GSM)

A 16"x16" incredibly plush microfibre in approximately 320 g/m² chamois features a revolutionary microfibre technology (blend of 80/20 ratio of polyester/polyamide (Nylon) that effectively removes moisture from the surface without scratching or streaking it. This is suitable for all surfaces, such as glass, plastic, paintwork, wood, chrome, etc. because of its high water absorption and retention. This polishing cloth is the #1 choice for enthusiasts everywhere.

Microfibre Size: 16"x16"

Microfibre Color: Blue, Red

Packing: 1 Microfibre in a box, 1 Master Box = 48 Pieces

Characteristics

- Extremely soft and absorbent wipe
- Rounded-off corners and turned-in edges
- Dual-sided microfibre is highly absorbent
- Wrings-out easily
- Anti-static and lint-free

Key Benefits

- Produces swirl free, mirror-like results.
- No residue, no wiped-in scratches.
- Will not harm painted, chromed or polished surfaces.

How to use

- Use damp wipe for cleaning, dry wipe for polishing.
- For use on textured surfaces and textiles: Use damp, or, for best results, with special cleaning agent.
- Can also be used with spray wax, glass cleaner, protectant and other spray products.

Notes

- Do NOT iron.
- Wash the wipe by any laundry detergent.
- Wash in lukewarm water upto 80 °C.
- Stiffness in the cloth is due to accumulated dust; Re-wash when stiff to restore the original smooth absorbent wipe.
