

Juggernaut 16"x16" Microfiber
(900 GSM) – (HSN – 6307 1090)

Juggernaut 16"x16" Microfibre (900 GSM)

A 16" x 16" incredibly plush black microfibre in approximately 900g /m2 features a revolutionary microfibre technology that effectively removes dirt, dust, moisture and contaminants from any surface (glass, plastic, metal, wood, chrome etc) without scratching or streaking it. It has high water absorption and retention capacity. This cleaning, dusting, washing and polishing cloth is the #1 choice for enthusiasts.

Packing

Characteristics

- Ultra soft and absorbent wipe
- Dual-sided microfiber is highly absorbent
- Wrings-out easily
- Anti-static and lint-free
- Washable and durable

Key Benefits

- Produces swirl free, mirror-like results.
- No residue, no wiped-in scratches.
- Will not harm painted, chromed or polished surfaces.

How to use

- For water absorption, use dry wipe for wiping.
- For glass surfaces, use damp wipe with JOPASU Glass Cleaner.
- For furniture or vinyl surfaces, use damp wipe with/ without General Purpose Cleaner.
- For polishing, use dry wipe for buffing JOPASU Spray Wax or other polishes.

Notes

- Do NOT iron.
- Wash the wipe by any laundry detergent.
- Wash in lukewarm water upto 80 °C.
- Stiffness in the cloth is due to accumulated dust; Re-wash when stiff to restore the original smooth absorbent wipe.
