

Killrona™ Advance Car Sanitizer

Killrona™ Advance Car Sanitizer in an aerosol can is a water based 4th generation disinfectant. It provides expert protection against harmful pathogens with a unique sanitizing formula that eliminates 99.9% of fungi, viruses, and bacteria. This mild grass lemon scented sanitizer disinfects and deodorizes as it cleans. Can also be used in moist environments to control the growth of mold and mildew on surfaces.

Disinfecting Strength

Killrona™ Advance Car Sanitizer

Packing

400ml

Characteristics

- Mild lemon grass fragrance
- Contains Didecyldimethylammonium chloride (DDAC)
- Aerosol Can helps in disinfecting larger area quickly
- Odour elimination technology

Key Benefits

- 99.99% reduction in number of microbes (virus, bacteria, fungi etc).
- Restricts the growth of bacteria and mold.
- Effective at stopping unpleasant odours.
- Prevents spread of infectious diseases.

How to use

- Make sure to wear face masks, gloves & protection goggles while doing the disinfection process to avoid contact with dust and germs.
- Pre-clean surfaces prior to use.
- Hold can upright 6" to 8" from surface.
- Spray 3 to 4 seconds until covered with mist.
- Allow to remain wet for 3 minutes.
- Let air dry.
- Repeat applications in weekly intervals or when mold and mildew growth appears.

Notes

- Do not spray on a naked flame or any incandescent material.
- Use gloves, masks & protection goggles as a precautionary measure.
- Pressurised container, thus protect from sunlight and do not expose to temperatures exceeding 50 °C.
