Durability

Packing

500ml, 20L, 200L

Characteristics

- Colourless, sprayable, trendy fragrance
- Solvent based formulae
- Silicones for high gloss
- Shines and restores moisture
- Flammable
- Can be used on rubber, plastic, vinyl

Key Benefits

- Prevents premature aging and fading.
- Generates deep, rich lasting shine.
- Solvent-based formulation enables shine agents to penetrate surface enhancing durability.
- Restores moisture depleted by UV rays.

How to use

- **Exterior Rubber/Vinyl/Plastic surfaces**
 - Spray the product directly onto the vinyl, plastic or rubber surface.
 - Allow the product to settle for 2-3 minutes.
 - Remove the excess with the help of JOPASU Applicator pad or JOPASU Microfiber.
- **Tires**
 - Prior to applying product, thoroughly clean tire with JOPASU General Purpose Cleaner and tire brush, then pressure rinse and wipe dry.
 - Spray the product evenly on the tires.
 - Allow tires to dry thoroughly before moving the vehicle.
 - Allow the product to settle for 2-3 minutes.
 - Remove the excess with the help of JOPASU Applicator pad or JOPASU Microfiber.

Notes

- Flammable due to solvents.
