

Ultrapack Kit

Ultrapack Kit consists of Bio Car Shampoo, De-oxidiser, Super Glaze, Ultracoat, Vinyl Protectant & Trim N Tire Protectant.

Ultrapack Kit - (HSN – 3405 3000)

Contents

Step 1: Bio Car Shampoo 250 ml

- A highly concentrated, bio-degradable, thick, aqua-green liquid shampoo features rich stable foam that lifts and holds dirt in suspension allowing easy film free rinsing.

Step 2: De-oxidiser 500 ml

- Surface Preparation: A semi aggressive silicone free compound which quickly & effectively removes oxidation and over spray.

Step 3: Super Glaze 500 ml

- Surface Glazing: A mildly aggressive, extremely durable, silicone free lotion which removes dust particles from the micro pores of the painted surface and imparts high gloss & deep shine.

Step 4: Ultracoat 500 ml

- Paint Sealant: A Polytetrafluoroethylene (P.T.F.E.) fortified paint sealant containing artificial gloss enhancers and antistatic polymer which protects the vehicle's finish from sun, salt, grease, tar, acid rain and industrial fallout, while sealing in a deep and durable shine.

Step 5: Vinyl Protectant 500 ml

- It is applied on the plastic part and console to protect it against UV rays & heat, it makes the plastic part look clean and shining always. To be used in interior plastics only.

Step 6: Trim N' Tire Protectant 500 ml

- It is applied to tyres & all rubber parts to prevent damage and give a glossy look. To be used on exterior plastics & rubber parts only.

Bio Car Shampoo

A highly concentrated, bio-degradable, thick, aqua-green liquid shampoo features rich stable foam that lifts and holds dirt in suspension allowing easy film free rinsing.

Cleaning Strength

Foaminess

Bio Car Shampoo - (HSN – 3402 9099)

Packing

100ml, 500ml, 5Kg, 50Kg, 200Kg

Characteristics

- Aqua green-coloured liquid
- An exclusive pH balanced (pH 7-9), biodegradable formula
- Highly concentrated
- Removes dirt and grime
- Can be used on paint, chrome, glass, rubber, plastic and vinyl surfaces

Key Benefits

- Eco friendly due to bio-degradability.
- Low usage cost, as it is highly concentrated and mixes with water.
- Does not strip wax protection and is safe for all paint types due to its pH balanced formulation and non-streaking properties.
- Saves time and effort because, it's super high foam lifts and holds dirt in suspension and promotes a film-free rinsing.

How to use

- Mix 1 part of product with 300 parts of water (10ml shampoo in 3L water).
- Rinse the vehicle with fresh water from top to down for freeing up loose dirt and silt, so that it doesn't get caught in the wash mitt thereby marring the surface.
- Agitate the shampoo with a wash mitt and apply it to the top of the vehicle, then proceeding downwards on remaining parts including the wheel wells (Use a separate wash mitt for wheels).
- Rinse the vehicle from top to down again using low pressure washer.
- Remove any excess water by Jopasu Magic Wipe Microfiber.

Notes

- Ensure vehicle is not under direct sunlight while washing.
- Mix the shampoo and water as directed. Too much concentrated shampoo may lead to unwanted streaking.

De-oxidiser

A mildly abrasive, muddy lotion ideal for removing light (2000 grit) scratches and oxidation from all painted surfaces. Gives deep rich shine and gives perfect surface preparation before applying super glaze. Very cost effective since little product is needed.

Gloss Level

Abrasiveness

Buffability

De-oxidiser – (HSN – 3405 4000)

Packing

500ml, 2.5L, 40L, 200L

Characteristics

- Light coffee colour lotion
- No wax no silicon
- Medium-duty abrasives
- Body shop safe

Key Benefits

- Quickly and effectively removes light scratches and oxidation, minimizing buffing time.
- Very little product needed, which prevents pads from becoming saturated.
- Body shop safe, paintable and won't "fish eye" paint.

How to use

- Start with the roof, and proceed to the hood, trunk and sides.
- Apply a small amount of product directly on the painted surface.
- While the product is wet, buff a 2' x 2' area with a high speed buffer (1800 RPM or less) and a cutting pad. Keep the pad flat on the painted surface and buff until product dries, applying light even pressure. Clean pad regularly with pad spur.
- Use Super Glaze to enhance the gloss restored by step one de-oxidiser then followed by Ultracoat for protection.
- Product can be hand applied with a wax applicator pad.
- Be sure painted surfaces are cool to the touch before applying product.

Notes

- Ensure vehicle is not under direct sunlight while buffing and polishing.
- Do NOT allow product to freeze.

Super Glaze

A mildly aggressive, extremely durable, polymer fortified which has white glaze that safely removes light scratches, oxidation and swirl marks from all painted surfaces. It buffs easily & generates a deep, long-lasting gloss leaving an extremely smooth surface. Contains polymer and can be used as finished product.

Gloss Level

Buffability

Durability

Super Glaze – (HSN – 3405 3000)

Packing

500ml, 2.5L, 40L, 200L

Characteristics

- White coloured lotion with neutral fragrance
- Excellent durability
- Contains cross linking polymer
- Safe for all finishes

Key Benefits

- Quickly and effectively removes very light scratches, oxidation and swirl marks thereby minimizing buffing time.
- Polymer is chemically bonded to paint creating extremely durable protective layer.
- Very little product needed, which prevents pads from becoming saturated.
- Produces deep gloss, protecting finish from sun's ultra-violet rays.

How to use

- **High Speed Buffer**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply a small amount of the product directly on the painted surface or on every quadrant of the polishing pad.
 - Buff a 2'X2' area by keeping the polishing pad flat on the surface, and applying even pressure until the product is dry.
 - Remove the residue with clean soft microfiber.
- **Orbital Buffer / Hand**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply product evenly over a painted surface with a moist polishing bonnet or applicator sponge.
 - Use even pressure in circular motion to remove swirls and minor scratches and allow it to dry to haze.
 - Remove the residue with clean soft microfiber.

Notes

- Ensure vehicle is not under direct sunlight while polishing.
- Wash the polishing pads regularly after every use.

Ultracoat

A Polytetrafluoroethylene (P.T.F.E.) fortified paint sealant containing artificial gloss enhancers and antistatic polymer which protects the vehicle's finish from sun, salt, grease, tar, acid rain and industrial fallout, while sealing in a deep and durable shine.

Ultracoat – (HSN – 3405 3000)

Packing 500ml, 2.5L, 40L, 200L

Characteristics

- Milky white lotion
- Contains antistatic crosslinking polymer
- Enhances gloss and protects
- Extremely durable
- P.T.F.E. fortified

Key Benefits

- Lotion formulation easy to apply and remove which saves time and effort.
- Polymer chemically bond to paint creating extremely durable protective layer.
- Produces a deep and rich shine.
- Protects finish from sun's ultra-violet rays.

How to use

- **High Speed Buffer**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply a small amount of the product directly on the painted surface or on every quadrant of the polishing pad.
 - Buff a 2'X2' area by keeping the polishing pad flat on the surface, and applying even pressure until the product is dry.
 - Remove the residue with clean soft microfiber.
- **Orbital Buffer / Hand**
 - Dust off or wash your car to get rid of any dirt or dust particles.
 - Following steps to be done starting from the roof, proceeding to the hood, trunk and sides.
 - Apply product evenly over a painted surface with a moist polishing bonnet or applicator sponge.
 - Use even pressure in circular motion to remove swirls and minor scratches and allow it to dry to haze.
 - Remove the residue with clean soft microfiber.

Notes

- Do not inhale/swallow.
- Avoid contact with skin and eyes.

Vinyl Protectant –
(HSN – 3405 9090)

Vinyl Protectant

JOPASU's Vinyl Protectant is a ready-to-use, water-based, high gloss dressing for vinyl, plastic, leather and rubber surfaces. Durability is high and prevents premature aging and fading. This thick green gel can be spread evenly, generating a deep rich shine and leaving a pleasant fragrance of english rose in your car.

Gloss Level

Cleaning Strength

Durability

Packing

500ml, 2.5L, 40L, 200L

Characteristics

- Light green liquid with English rose fragrance
- Silicones for high gloss
- Shines Protects and restores moisture
- Can be used on rubber, plastic, leather and vinyl
- Contains agents providing enhanced durability

Key Benefits

- Water-based formula contains no harsh solvents.
- Safely shines and protects exterior and interior rubber, plastic and vinyl surfaces.
- Thick formulation enhances durability.
- Generates deep, rich shine.
- Safe to use on engines.

How to use

- **Exterior & Interior**
 - Put small amount of product on JOPASU Applicator Pad.
 - Apply product to vinyl, plastic and rubber surfaces with pad.
 - Spread it evenly and allow to dry. Wipe extra with JOPASU Microfiber or JOPASU Applicator Pad.
- **Tires**
 - Prior to applying product, thoroughly clean tire with JOPASU General Purpose Cleaner and tire brush, then pressure rinse and wipe dry.
 - Put small amount of product on JOPASU Applicator Pad.
 - Apply product evenly to tire with pad.
 - Allow tires to dry thoroughly before moving the vehicle.
- **Engine**
 - Put small amount of product on applicator pad.
 - Apply product to entire engine evenly.
 - Wipe extra with JOPASU Microfiber or JOPASU Applicator Pad.

Notes

- Do NOT swallow.

Trim 'N' Tire Protectant –
(HSN – 3405 9090)

Trim 'N' Tire Protectant

JOPASU's Trim N' Tire Protectant is a ready-to-use, solvent-based dressing that provides a deep rich shine, lustre and protective barrier to exterior vinyl, plastic, and rubber surfaces. It is not a body-shop safe product.

Packing	500ml, 2.5L, 20L, 200L

Characteristics

- Blue liquid with english rose fragrance
- Solvent based formulae
- Silicones for high gloss
- Shines and restores moisture
- Flammable
- Can be used on rubber, plastic, vinyl

Key Benefits

- Prevents premature aging and fading.
- Provides a protective barrier.
- Generates deep, rich, long lasting shine.
- Solvent-based formulation enables shine agents to penetrate surface enhancing durability.
- Restores moisture depleted by UV rays.

How to use

- **Exterior Rubber/Vinyl/Plastic surfaces**
 - Put small amount of product on JOPASU Applicator Pad.
 - Apply product to vinyl, plastic and rubber surfaces with pad.
 - Spread it evenly and allow to dry. Wipe extra with JOPASU Microfiber or JOPASU Applicator Pad.
- **Tires**
 - Prior to applying the product, thoroughly clean tire with JOPASU General Purpose Cleaner and tire brush, then pressure rinse and wipe dry.
 - Put small amount of product on JOPASU Applicator Pad.
 - Apply product evenly to tire with pad.
 - Allow tires to dry thoroughly before moving the vehicle.

Notes

- Flammable due to solvents.
